

# Arntz

Passionate  
Cutting!

## THERMO TREATED

- Special thermo treatment
- Dark oxid layer
- Sharper tooth edges
- Reduced cutting forces
- Superior blade life
- Best performance in a wide range of materials

# ARNTZ, your partner for sawing challenges.

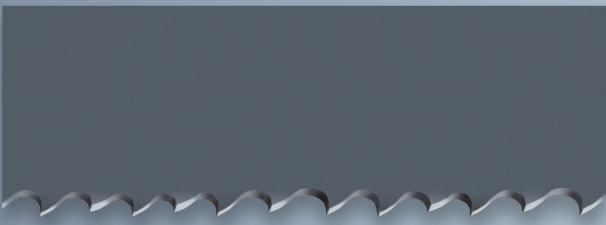

Furnace for thermal processing

Performance and innovation are important to ARNTZ. Let us introduce ourselves as passionate saw specialists, always looking for a new challenge.

The product group 300 is our latest development. Based on the advantages of the 400 series ARNTZ developed the special thermo treated blades for longer blade life.

Extra sharp tooth edges reducing cutting forces and providing a perfect sawing result for a large range of materials.

## Explanation of Symbols

	solid material round small
	solid material round medium
	solid material round big
	solid material square big
	solid material special material
	solid material rectangular big
	sheet panel
	round tube small standard wall thickness

	round tube small thin walled
	round tube standard wall thickness
	round tube heavy walled
	bundle of tubes
	square tube big
	standard steel beam
	U channel steel
	L angle steel
